# Redefine the user experience

The interior of an elevator significantly contributes to the overall architectural ambiance of a building. Similar to any other enclosed space, an elevator that is user-friendly, adorned with appealing finishes, adaptable color schemes, intelligent lighting, a harmonious soundscape, and digital media content has the potential to elevate the stature of your building.

We have created predefined elevator interior ranges for you to choose from or you can always mix and match between ranges to find the optimal solution.

## Build greener

Materials are compliant with LEED low-emitting materials, BREEAM indoor air quality and Nordic Swan material precondition requirements.

# Refined

## Pleasant continuity through spaces

Durable surfaces with enhanced versatility provide significant value across various building types, spanning from residential homes to retail, offices, and high-rise structures. With a diverse range of elements that can be easily interchanged, there's ample opportunity for mix-and-match customization to discover the optimal solution for each space.

## Soft touch

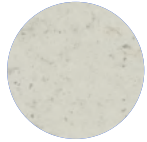

In search of warm and comforting surfaces to fashion a cozy and welcoming environment, high-pressure laminate emerges as an ideal choice. Renowned for its exceptional durability, this material maintains its desired tactile qualities even with daily usage. Moreover, laminates prove particularly advantageous in optimizing lighting effects to enhance the ambiance further.

# Elegant

Authentic and true interiors

The finest materials and highly versatile accessories cater to the needs of sophisticated, intelligent, and environmentally conscious spaces, including high-rise structures, corporate offices, and premium residential developments. These solutions inspire architects, designers, investors, and developers striving to meet lofty standards in their projects, even if full customization isn't required.

A man and a young girl are shown from the chest up, looking upwards with joyful expressions. They are in a dark space filled with falling confetti in shades of blue and purple. The man is wearing a grey blazer over a brown turtleneck and is holding a small brown teddy bear. The girl is wearing a dark top and has colorful hair ties. The background is a soft, glowing blue light.

# KONE Digital Experience Cars

Sometimes the elevator ride is more than the destination

Enter a whole new world of multi-sensory experiences. With dynamic sound, vivid colors, and immersive themes, the KONE Digital Experience Car can be tailored to capture your attention or sooth your senses – create a unique journey for people in your building.

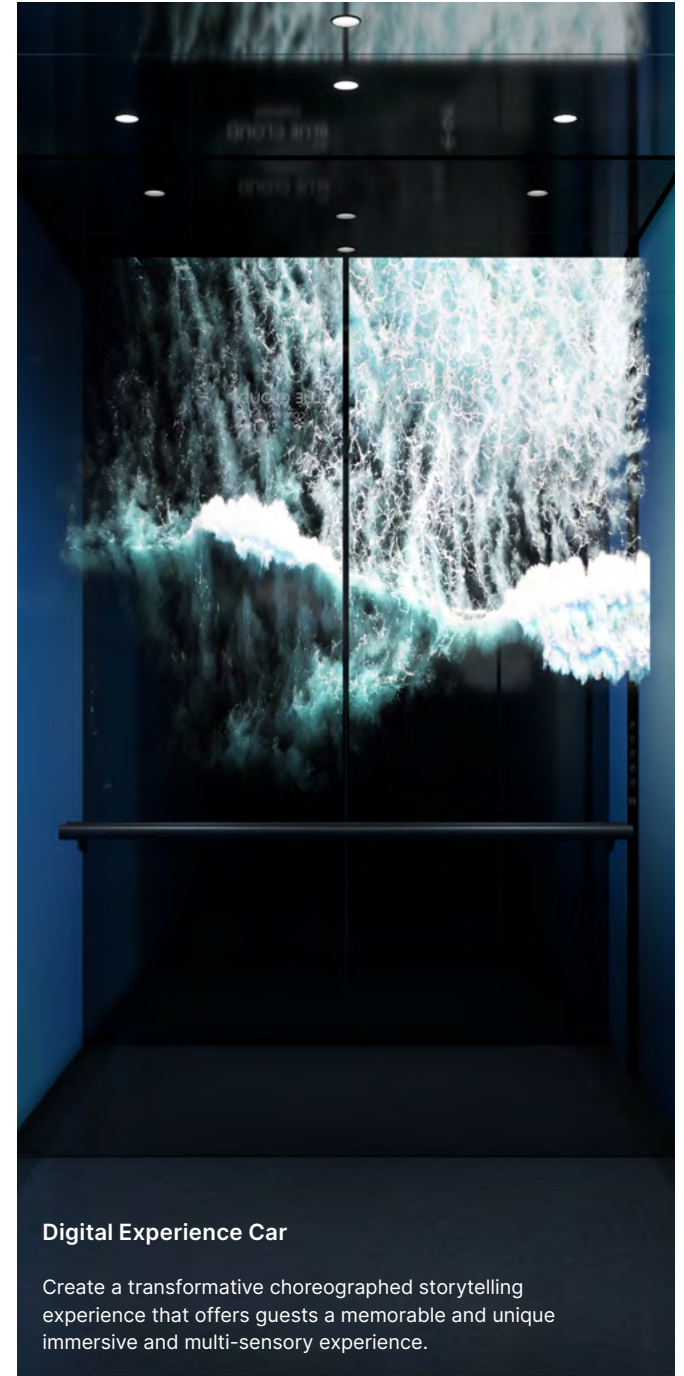

### Aurora Car

Hybrid experience that is equally digital and physical, created through technology, driven by human needs.

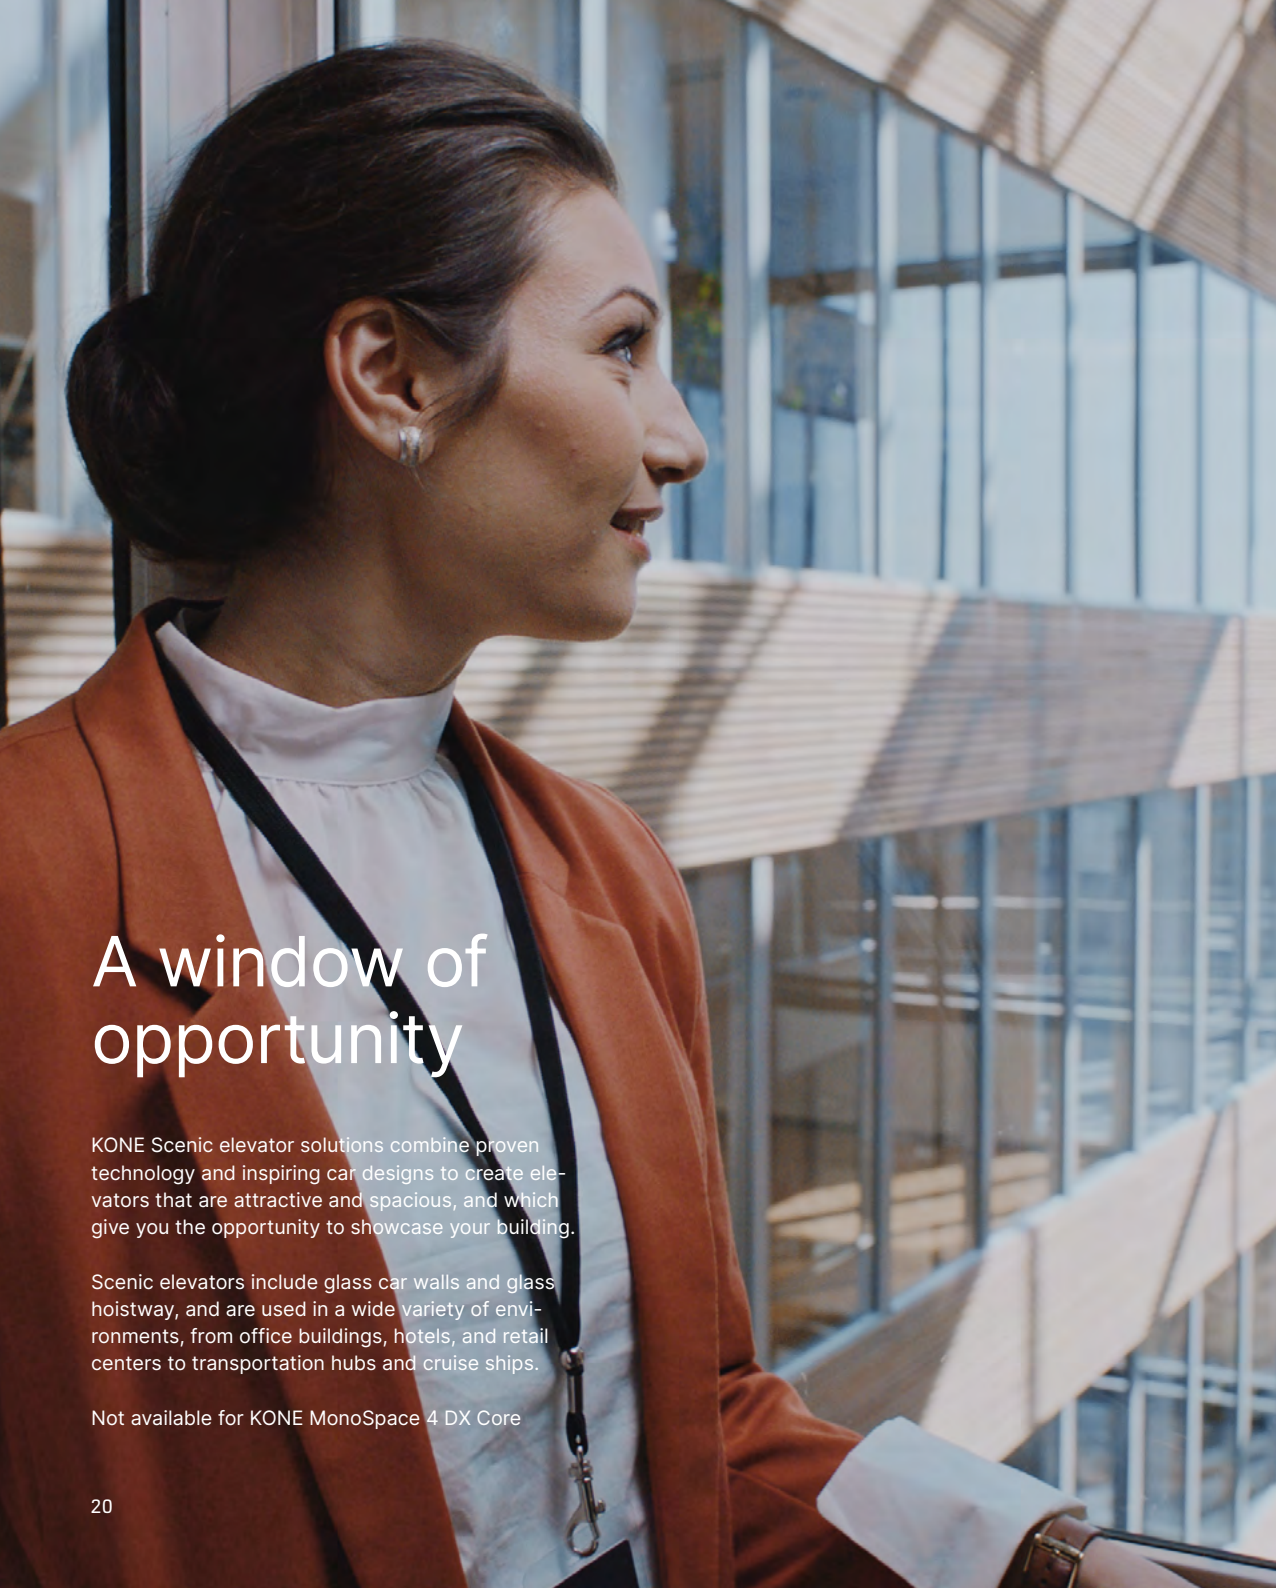

### Mirror Display Car

Invisible if not required but always available when needed, 100% adaptable and future proof beyond ordinary way of communication.

### Digital Experience Car

Create a transformative choreographed storytelling experience that offers guests a memorable and unique immersive and multi-sensory experience.

# A window of opportunity

KONE Scenic elevator solutions combine proven technology and inspiring car designs to create elevators that are attractive and spacious, and which give you the opportunity to showcase your building.

Scenic elevators include glass car walls and glass hoistway, and are used in a wide variety of environments, from office buildings, hotels, and retail centers to transportation hubs and cruise ships.
