Modernization of elevator signalization

This surface-mounted signalization solution is designed for use in residential and commercial buildings.

**Saving energy**
KONE has developed solutions that reduce energy consumption by dimming the signalization in the car at a preset time after the elevator has been used.

**Key Benefits**
- Eco-efficient amber colored LED call registration illumination
- Dimming feature when elevator not in use
- Safe
  - Increases safety and accessibility of elevator users
  - Complies with EN81-70 (European Accessibility Standard)
  - Complies with EN81-73 (European Fire Behavior Standard)
  - KONE Remote Monitoring for two-way emergency communication with KONE Customer Care Center*
  - Intercom systems*
- Versatile and stylish
  - Serial electrical interface
  - Surface mounting with fixed face plate size
  - Available satin stainless steel finish
  - Landing position indicator available with adjustable arrival gong volumes and text indication fields
  - Key fob operation: call or disable elevator remotely*
  - PIN Code locking feature removing the need for key switches*

* Optional
